GREATER CINCINNATI WATER WORKS ANNOUNCES REPLACEMENT OF WATER MAIN ON FIDDLERS GREEN RD. AND WILLOWDALE DR.

To provide better service to our customers, Greater Cincinnati Water Works (GCWW) has contracted with Rack and Ballauer Excavating Co. to install a replacement 12-inch water main on Fiddlers Green Rd. from Briargreen Lane to Bridgetown Rd. and Willowdale Drive from Fiddlers Green Rd. to 760 feet west.

Construction is tentatively scheduled to begin Monday October 15, 2007, and is expected to take 120 days. All traffic restrictions will be monitored and adjusted as necessary.

The following traffic restrictions will be in place during the construction period.

- Fiddlers Green Rd. will be closed to through traffic during all working hours, with the following exceptions. A marked detour will be in place.
 - On Fiddlers Green Rd. and Willowdale Drive, no work will be permitted between 7:00 a.m. and 9:00 a.m.
 - Access for school bus traffic and emergency vehicles will be maintained at all times.
 - At the intersection of Bridgetown Rd. and Fiddlers Green Rd., no work will be permitted between 6:00 a.m. to 9:00 a.m. and 4:00 p.m. to 6:00 p.m.

At times, unforeseen situations beyond the control of the Contractor or Greater Cincinnati Water Works may cause delays in traffic movement.

We hope our customers will pardon any inconvenience that may result from this water main improvement. Disruption to present water service will be kept to an absolute minimum.

A Greater Cincinnati Water Works inspector will be present during construction operations. Please feel free to address any concerns regarding the construction operations with our representative. Pat Arnette, Senior Engineer, at 513-591-6585, is also available to answer questions about this project.
